

Traumatic Brain Injury (TBI) Evaluation and Transitional Education Program

Target Population: High School Students, preferably Juniors or Seniors who have a diagnosed acquired brain injury. All students would be day students.

Time Frame and Location: One to two students each week who can fit into the TBI Program schedule. Student(s) will be in the TBI Program Monday-Friday from 8:15 am until 3:15 pm.

Major Emphasis: The goal of the Traumatic Brain Injury Evaluation and Transitional Education Program is to provide and assist the individual in obtaining a comprehensive vocational evaluation. This evaluation will assist students in making post high school plans and to determine if college, job training, or employment is the next best step in reaching their employment goals. Students will receive the following services both individually, and as a group:

- Vocational Evaluation to include a Physical Therapy Evaluation, Occupational Therapy Evaluation, Speech and Language Evaluation, Vision Assessment, and Psychological Assessment
- Job Exploration
- Work Based Learning
- Counseling on Post-Secondary Education
- Work Readiness
- Self-Advocacy
